

1-DAY LEADERSHIP WORKSHOP

Build an AI-Empowered Company

A practical leadership programme to assess AI readiness, identify high-value opportunities, redesign priority workflows and define a clear action plan.

DURATION

1 Day

TARGET GROUP

CEOs, HODs & Leadership Teams

FEE

RM1,288 / pax

PROGRAMME STATUS

HRD Corp Claimable

PROGRAMME OBJECTIVE

Turn AI interest into a practical business direction.

Equip participants with a structured framework to evaluate AI opportunities, prioritise suitable workflows and plan practical AI-enabled business transformation.

LEARNING OUTCOMES

Participants will be able to:

- Assess current AI readiness.
- Understand the AI value gap.
- Recognise practical AI transformation.
- Identify workflows with strong AI potential.
- Redesign and prioritise AI-enabled workflows.
- Develop a next-step action plan.

EXPECTED PARTICIPANT OUTCOMES

AI readiness assessment

AI-ready workflows identified

Prioritised AI opportunities

Redesigned workflow concepts

Action plan for implementation

PROGRAMME AGENDA

Morning

01

SysTransform & Participant Introduction

Programme orientation, participant context, key challenges and current AI usage.

02

Where Is Your Organisation Today? + The AI Value Gap

Assess current AI maturity, transformation gaps and why AI adoption may not create measurable value.

03

SysTransform Success Demonstration

See practical AI transformation in real business operations, workflow redesign and human-AI collaboration.

Afternoon

04

Find the Right Workflow

Identify pain points, repetitive activities, bottlenecks and workflows suitable for AI transformation.

05

AI Workflow Redesign & Prioritisation

Redesign selected workflows and prioritise opportunities by value, feasibility and organisational readiness.

06

Build Your Next-Step Action Plan

Define practical priorities, ownership and next actions for continued AI transformation.
